ABOUT

I am a front end developer and photographer interested in making apps that help artists with their practices and careers. I started a creative collective in spring 2017 to bring young talent together and create content together. My goal in life is to make beautiful and meaningful things using my creative background and technical skills.

PROJECTS

BATTLE CATS - 2017

- Capstone Project for DevBootCamp
- Ruby on Rails/S3/PaperClip/Javascript
- <https://github.com/dgonca/battle-cats>
